

# FICHA TÉCNICA

## MEDIDOR DE HUMEDAD DIGITAL

### DIGITAL MOISTURE METER CODE 9341-50

- Suitable for wood, smooth cement, hard gypsum, mixed mortar, brick, etc.
- Measure moisture, temperature and relative humidity
- Temperature type: ambient, dew point, wet bulb
- Maximum and minimum modes
- Automatic power off

#### SPECIFICATION

|                 |                   |                                          |
|-----------------|-------------------|------------------------------------------|
| Measuring depth |                   | 0~50mm                                   |
| Measuring range | moisture          | 0~60%                                    |
|                 | temperature       | -10~50°C/14~122°F                        |
|                 | relative humidity | 0~100%RH                                 |
| Accuracy        | moisture          | ±2%                                      |
|                 | temperature       | ±2.0°C/±3.6°F                            |
|                 | relative humidity | ±5%RH                                    |
| Resolution      | moisture          | 0.1%                                     |
|                 | temperature       | 0.1°C/0.1°F                              |
|                 | relative humidity | 0.1%RH                                   |
| Sampling time   |                   | 0.5s for moisture                        |
|                 |                   | 1s for temperature and relative humidity |
| Power supply    |                   | 2×AAA batteries                          |
| Dimension       |                   | 130×56×29mm                              |
| Weight          |                   | 206g                                     |

cover (included)

#### STANDARD DELIVERY

|               |       |
|---------------|-------|
| Main unit     | 1 pc  |
| Battery (AAA) | 2 pcs |
